

Opening Proposal Roadshow Concludes

This past week, the Negotiating Committee wrapped up the Opening Proposal Roadshow in Honolulu. Over a six (6) week period, the Committee met with Members at all nineteen (19) Bases, reviewing the highlights of our Opening Proposal as well as providing insight into what management has indicated their view is for our next Contract. A majority of the time at each Meeting was spent engaging directly with Members who attended, answering questions and providing additional clarity into specific provisions of our Proposal.

At this point it's critical for everyone to remain engaged and informed, *with accurate Information*. To support this, we launched our Negotiations Support Activist InfoRep structure. InfoReps are specially trained Flight Attendants who serve as a front-line source of reliable and factual Contract Negotiations information. They can be identified by their purple badge-backers and luggage tags. InfoReps will be some of the first to receive Negotiations information. The InfoRep structure gives us the ability to quickly share information. Each Local structure will play a critical role that will ultimately afford us two-way communication of important information in a short period of time.

The success of these Negotiations relies on all of us standing together, with solidarity, despite any differing views we may have from time to time. This is OUR Union, OUR Contract, OUR future, and OUR success depends on OUR collective commitment to the process and to each other! Flight Attendants interested in taking a more active role in support of our Negotiations should contact their Local Council to express interest in becoming an InfoRep. Thank you to everyone who already signed up while attending the Roadshow!

The Negotiating Committee will now begin to prepare for the next step in the negotiations process; direct negotiations with the company. Once a schedule for Direct Negotiations has been established it will be reported in Negotiations News.

Opening Proposal Roadshow Video

Our Opening Proposal Highlights video, shown on the Roadshow, is now available on Contract2021.org

Negotiations & Social Media

Keep discussion of our negotiations off social media!

Debating our individual likes, dislikes, or views of the Opening Proposal has the potential to get heated. Even a simple statement that may not seem important, can be taken out of context and erode our solidarity. And once it is published, there is no taking it back.

Most importantly, when we publicly discuss and comment on social media about what is important to us during the course of negotiations, management sees it too, and they will not hesitate to use that information against us.

Make no doubt, management monitors social media and giving them a view into our Flight Attendant community provides them with an advantage we cannot allow, nor afford, them to have.

Do not give management the advantage, keep social media for socialization and fun.

Again, do not use social media to discuss our negotiations.

Management is watching!
